PROFESSIONAL SUMMARY

I'm a final-year B.Tech. Information Technology student with Honors in Data Science, focused on AI and machine learning. I have hands-on experience in real-world projects involving deep learning, data analysis, and model deployment. I actively engage in academic and co-curricular initiatives, combining technical skills with creativity and leadership to drive innovation and collaboration.

EDUCATION

BTech in Information Technology, Sarvajani College Of Engineering and Technology, Surat	2022-2026
CGPA: 9.59/10 (6 Semesters)	
High School, Reliance Foundation School, Surat	2022
12th CBSE Marks: 93%	
Secondary School, J. H. Ambani Saraswati Vidyamandir School, Surat	2020
10th CBSE Marks: 94.8%	

EXPERIENCE

Reliance Industries Limited – Hazira Vocational Trainee – Information Technology	May 2025 – June 2025
- Gained exposure to networking architecture, server administration, and cybersecurity aligned with industrial standards. - Assisted in monitoring IT infrastructure, managing Oracle and SQL Server databases, and understanding enterprise data flow. - Explored centralized systems like LIMS, MIIS, and MITS to understand plant operations, safety, and support services. - Conducted research on “Real-Time Employee Count Verification” using computer vision and AI for workplace automation.	

PROJECTS

QuickRead: News Article Summarizer	ONGOING
(Python, Flask, HTML, CSS, Javascript)	
- Developing a web-based application that scrapes news articles, allows users to select headlines, and generates concise summaries using the DistilBERT model. - Incorporating features for article categorization, with future integration of OCR to extract and summarize text from scanned newspaper cutouts.	
SMS/ Email Spam Classifier Model	JUNE - 2024
(Python – Google Colab)	
- Developed an SMS/email spam classifier predicting a spam message using Naive Bayes learning in Python on Google Colab with 97.96% accuracy and 98.34% precision. - This project involved applying machine learning techniques to effectively identify and filter spam messages.	

POSITION OF RESPONSIBILITY

Student Executive – Unstop Campus Ambassador Program	October 2024 – April 2025
- Promoted national-level opportunities and coordinated events to boost student engagement. - Collaborated on creative campaigns and strengthened inter-college networking.	
Club Secretary – CyberSecurity Club, SCET	July 2024 – May 2025
- Spearheaded the organization of tech and non-tech events for over 200 participants. - Oversaw treasury and operational duties, ensuring smooth club functioning.	

SKILLS

Programming Languages: Python, C, Java
Databases: MongoDB, MySQL, Oracle
Tools & Technologies: VS Code, Git, GitHub

ACHIEVEMENTS

CS/IT-GATE 2025 Qualified: Marks: **48.61** Score: **548** Rank: **4862**
DA-GATE 2025 Qualified: Marks: **34.67** Score: **417** Rank: **4521**
